# LUXURY ENCHANTED IN ORKISZ VODKA

In Orkisz vodka luxury is rooted in three factors:

Award-winning, minimalistic design printed on a bottle to achieve top quality effect.

Unique spelt wheat „triticum spelta”, which is a key to the subtle, characteristic taste note valued by connoisseurs.

Craftsmanship, expertise and attention to detail of Lublin distillers, shown in a slow distillation process and small production batches.

# LUXURY TASTE

ORKISZ has a characteristic aroma of the grain from which it is produced - subtle, delicate, no alcohol smell at all, the smell is fresh and floral instead.

In taste you can experience vanilla sweetness broken with a delicate hint of pepper. The vodka is nice, smooth and oily. It has a light, not too long finish.
